

Vetrov Anatoly Nikolaevich, author of the unique cognitive modeling technology
www.vetrovan.(spb.)ru

The RF, Saint-Petersburg city

THE FUNDAMENTAL RESEARCHES EXHIBITIONS BRANCH
“COGNITIVE MODELING IN THE PHYSIOLOGY,
FUNDAMENTAL MEDICINE AND PUBLIC HEALTH SERVICES” (“OFFM”)
OF “SPBEC N.A. L.I. BREZHNEV” AT “EAST N.A. A.A. SOBCHAK”

The developed “The fundamental researches exhibitions branch
“Cognitive modeling in the physiology,
fundamental medicine and public health services” (“OFFM”)
treats to the fundamental researches (financing) exhibitions divisions
of “Saint-Petersburg exhibition centre named after L.I. Brezhnev”
at “Exhibition of achievements of science and technology named after A.A. Sobchak”
(“SPbEC n.a. L.I. Brezhnev” at “EAST n.a. A.A. Sobchak” – The EC) as the first EC
in structure of “The SIO “Academy of cognitive natural sciences” (“The SIO “ACNS”),
an additional component of science and education system of the modern country
for the promotion (of financing) of creation, distribution and use
of the fundamental main and derivative scientific results
of the cognitive modeling technology (CMT) (www.vetrovan.(spb.)ru)
[see the fundamental researches exhibitions branches and departments of The EC]:
1) it is executed by the principle of “administrative-economy submission”;
2) works in several main directions, which allow to provide
the promotion of development, production and distribution
of the fundamental main and derivative scientific results
(my second report on SRW from 2006-2008(9) y. was submitted
to “The SPbSETU “LETI” and The Government of The RF
for the translation, carrying out of int. action and receiving of “The Nobel Prize”);
3) includes several various main divisions:
I. “The fundamental researches exhibitions department
“The theory of the physiology, bio-physiology and private physiology” (“SF”) (*)
[the propaganda of fundamental researches and developments in area
“Theoretical physiology” ()* –
theory of general physiology, theory of methods and equipment of physiological researches,
theory of physiology, theory of molecular physiology,
theory of physiological cytology, theory of physiological embryology,
theory of physiological genetics, theory of physiology of viruses,
theory of micro-physiology, theory of physiology of organic individuals,
theory of physiology of plants, theory of zoological physiology,
theory of ecological physiology, theory of anthropology of physiology,
theory of physiology of human and animals, theory of physiological immunology,
theory of pharmacology and toxicology,
theory of radiation physiology, theory of space physiology,
theory of physiological cybernetics,
theory of cognitive modeling technology
in theoretical physiology;

the propaganda of fundamental researches and developments in area “Theoretical bio-physiology and public health services” ()* – theory of bio-medical-physiological disciplines, theory of private physiology of analyzers and sensory systems, theory of bio-physiological materials, means and products, theory of bio-physiological technics, theory of clinical physiology, theory of physiological bio-pharmacology and bio-epidemiology, theory of other branches of bio-medicine and public health services, theory of social physiology, theory of organization and management of public health services, theory of modified model of reduced eye, theory of modified model of reduced ear, theory of software for automation of research tasks of physiological, psychological and linguistical parameters of parametrical cognitive models block in medicine, theory of statistical substantiation of practical use of received results, theory of physiological, psychological and linguistical factors influencing to efficiency of functioning of information-educational environment and increase of productivity of automated training system with properties of adaptation based on cognitive models, theory of organization and plan of carrying out of experiment, theory of research of physiological, psychological and linguistical parameters of cognitive models of subject of training and means of training, theory of preliminary processing of a posteriori results of diagnostics, theory of choice of statistical analysis methods of generated data sets, theory of analysis of productivity dynamics of training, theory of dispersion, regression, discriminant, cluster analysis, multidimensional scaling, factor analysis and bibliographical lists, theory of the complex analysis of modified model of reduced eye for research of visual acuity, field of vision, color perception and other parameters in Descartes space of the 2 and 3 coordinates, theory of the complex analysis of modified model of reduced ear for research of absolute sensitivity and thresholds of sensitivity in Descartes space of the 2 and 3 coordinates].

II. "The fundamental researches exhibitions department
"The theory of the medicine, public health services, labor safety,
environment preservation and ecology of person" ("SFM") (*)
[the propaganda of fundamental researches and developments in area
"Theoretical medicine and public health services" –
 theory of medical-biological disciplines,
 theory of medical materials, means and products, theory of medical technics,
 theory of clinical medicine, theory of pharmacology, theory of hygiene and epidemiology,
 theories of other branches of medicine and public health services, theory of social hygiene,
 theory of organization and management of public health services,
 theory of cognitive modeling technology
 in theoretical medicine and public health services;
the propaganda of fundamental researches and developments in area
"Theoretical labor safety" (*) –
 theory of organization and management of labor safety,
 working conditions, industrial sphere and safety precautions,
 theory of professional illnesses and their preventive support,
 theory of accidents on manufacture and their prevention,
 theory of work capacity and examination of work capacity,
 theory of labor safety on categories of workers,
 theory of work safety on manufactures of increased danger,
 theory of cognitive modeling technology
 in theoretical labor safety,
 theory of cognitive model of subject of training;
the propaganda of fundamental researches and developments in area
"Theoretical preservation of environment and ecology of person" –
 theory and methods of studying and preservation of environment and person,
 theory of ecological bases of use of natural resources,
 theory of international cooperation, theory of environmental contamination,
 theory of pollution, theory of pollution and protection of atmosphere,
 theory of pollution and protection of land waters, seas and oceans, theory of protection of ground,
 theory of protection of bowels, theory of ecological bases of ability to live of person,
 theory of influence of anthropogenous changes of environment
 on health and social-labor potential of person,
 on condition of natural ecosystems,
 populations and organisms of vegetative and fauna world,
 theory of protection of vegetative and fauna world,
 theory of anthropogenous influence on landscape,
 theory of protection and optimization of landscape, theory of reserved affair,
 theory of protected natural territories and water areas,
 theory of acts of nature and accidents of anthropogenous origin,
 theory of ecological safety of person,
 theory of rational use and reproduction of natural resources by person,
 theory of preservation of environment and natural resources in separate regions and countries,
 theory of waste management, theory of small-waste and without waste technology,
 theory of protection of person from noise, vibrations, electrical and magnetical fields and radiations,
 theory of cognitive modeling technology
 in theoretical preservation of environment and ecology of person].

The fundamental researches exhibitions branches and departments of The EC
 allow to propagandize of development, production and financing
 of the fundamental main and derivative scientific results of CMT.
